Cilji in kompetence:**Objectives and competences:**

Cilj tega predmeta je sistematično obdelati različne aspekte modalnosti v angleščini kot nadgradnja predmeta Angleški glagol. Študenti se morajo zavedati tega, da modalnost ni samo stvar posamezne besede ali besedne zvezne, temveč širšega konteksta, stavka, povedi, besedila. Modalnost (izražena z modalnimi glagoli, modalnimi časi, pogojnimi stavki in intonacijo) je do določene mere kulturno zaznamovana in pogosto tudi dvoumna. V primeru angleščine je tudi veliko bolj razdelana in razvijena kot v slovenščini. Študenti morajo to spoznati in internalizirati, da bodo lahko angleščino spremeno uporabljali v vseh govornih položajih in v vseh sferah življenja.

Cilji pri vajah Jezikovno ozaveščanje:

- razumevanje različnih govorcev angleškega jezika in besedil v različnih kontekstih na zahtevnejši ravni,
- sistematično razširjanje/bogatenje besednega zaklada ter znanja slovnice,
- pravilni in tekoč govor angleškega jezika (na zahtevnejšem nivoju, tako v akademskih kot tudi v ostalih situacijah), z ustreznim izgovorjavo in intonacijo,
- pisanje različnih kompleksnih besedil.

The objective of this course is to get a systematic overview of various aspects of modality in English as an upgrading of the subject English verb. Students should become aware of the fact that modality is not merely a matter of the word or phrase (modal verbs), but also of a wider context, the sentence, the text. Modality (expressed by modal verbs and tenses, conditional sentences and intonation) is to a certain extent culture bound and frequently quite ambiguous. In the case of English it is also much more elaborate than in Slovene. Students need to be aware of this if they are to use the English language skillfully in any speech situation in any sphere of life.

Objectives for Language Awareness:

- Understand a variety of speakers of English and complex texts (both written and listening) at proficiency level,
- systematic building of vocabulary and grammar skills,
- speak English accurately and fluently (at proficiency level), with correct pronunciation and intonation in both academic and non-academic situations,
- produce a variety of complex written texts.

Predvideni študijski rezultati:

Znanje in razumevanje:

Po zaključku tega predmeta bo študent sposoben

- razločiti odstopanja v odnosu med slovničnim in univerzalnim časom, ki nastajajo zaradi specifičnih lastnosti in pomenov modalnih glagolov in časov ter kontekstov, v katerih se pojavljajo, in se s tem izogniti napačni interpretaciji besedila
- razpozнатi in uporabljati modalne oblike v različnih besedilnih vrstah v angleščini, razumeti njihov pomen in določiti referenčni čas
- razločevati med deontičnimi in epistemičnimi funkcijami posameznih modalnih glagolov
- uporabljati različne oblike pogojnih stavkov učinkovito in na pravih mestih
- uporabljati različne intonančne vzorce, ki ustrezajo danemu pogovornemu položaju ali pa ga spremenijo (to je še posebej koristno pri

Intended learning outcomes:

Knowledge and understanding:

On completion of this course student will be able to

- identify deviations in the “time” v. “tense” relationship resulting from specific characteristics of modal verbs and their context and thus avoid misinterpreting the intended meaning of texts
- identify and use modal structures in different text types in English correctly both in terms of time reference and modal meaning,
- differentiate between deontic and epistemic functions of individual modal verbs
- use the various types of conditional sentences appropriately and efficiently,
- use intonation patterns suiting the atmosphere of the situation and for creating new atmospheres (this is especially useful for rhetoric and negotiations),

Cilji in kompetence:

Cilj tega predmeta je sistematično obdelati sodobne jezikoslovne teorije na ustreznih jezikovnih ravneh (od fonološke naprej), vzbuditi pri študentih zanimanje za morda že kar nepriljubljena in navidezno neuporabna teoretska vprašanja tako, da pokažemo, da je mogoče zelo s pomočjo razumevanja teoretskih modelov reševati uporabna jezikoslovna vprašanja (npr. prek optimalnostne teorije razložiti procese, ki se dogajajo v otroškem govoru, v dialektih ipd.).

Objectives and competences:

The objective of this course is to systematically deal with contemporary linguistic theories at different levels of language (from the phonological level to discourse), encourage students to take interest in somewhat unappreciated and seemingly inapplicable theoretical issues in such a manner as to show that it is possible through the understanding of theoretical models to solve current linguistic problem (e.g. through optimality theory to explain processes occurring in children's speech, in dialects, etc..)
